Understanding Your Requirements

1

Risk Management Solution

We believe in management of risk, including licence checking, risk solutions & driver training.

2

Key Objectives

What are your key objectives?

3

Motivations & Challenges

What are the key motivations & challenges you face?

Key Components (Documents)

Driving Licence Checks

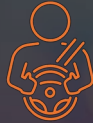

Handling the entire end-to-end process of checking licences

**DVLA
Licence Checks**

**International
Licence Checks**

**Additional
Drivers Checks**

Time Savings

Replaces time consuming paper-based administration

Instant Checks

Our process provides instant licence checks via our highly secure web-based portal

Ongoing Management

Management of future checks, to minimise exposure to risk & ensure compliance

Employee Checks

Our dedicated team chase employees who require checks

Grey Fleet Management

It's essential that your drivers have business class insurance when driving their own vehicles for work purposes!

Visa to Drive:

1

Cost Effective

Requesting, obtaining & collating driver information is a time intensive process that requires significant resources. Using Visa to Drive you will significantly reduce operating costs.

2

Ensure Compliance

TMC are experts at interpreting regulatory & legal requirements into workable solutions. Visa to Drive is a proven way of ensuring that your fleet & drivers are compliant with your fleet policy.

3

Consolidated Solution

Visa to Drive enables you to consolidate all your duty of care documentation into one centralised location, ensuring you have a robust procedure for ensuring Duty of Care compliance.

With Visa to Drive you can be sure that your grey fleet drivers are insured at all times!

Key Components (Risk)

Risk Assessment

Short, Online Questionnaire

3 Key Risk Areas

Questionnaire covers main risk areas: the driver, the journey & the vehicle

Fully Digital

Risk assessments are completed online & take no more than 10 minutes

Risk Profiling

Outcomes of the risk assessment generate an individual risk rating

Automated Analysis

Automatic risk analysis of results triggers mitigation solutions, directly to driver

Online Training

Integrated LMS

Modules are developed in-house & hosted on Applied Driving's own learning management system

40+ Modules

Rapidly growing library of modules available in multiple formats, including CGI & 2D animation

Flexible Access

Pulsed module delivery ensures drivers remain positively engaged & influenced

In-Vehicle Training

Proactive, Not Reactive

Specialised Trainers

Fully qualified, verified & quality checked, trainers are experienced & highly-skilled

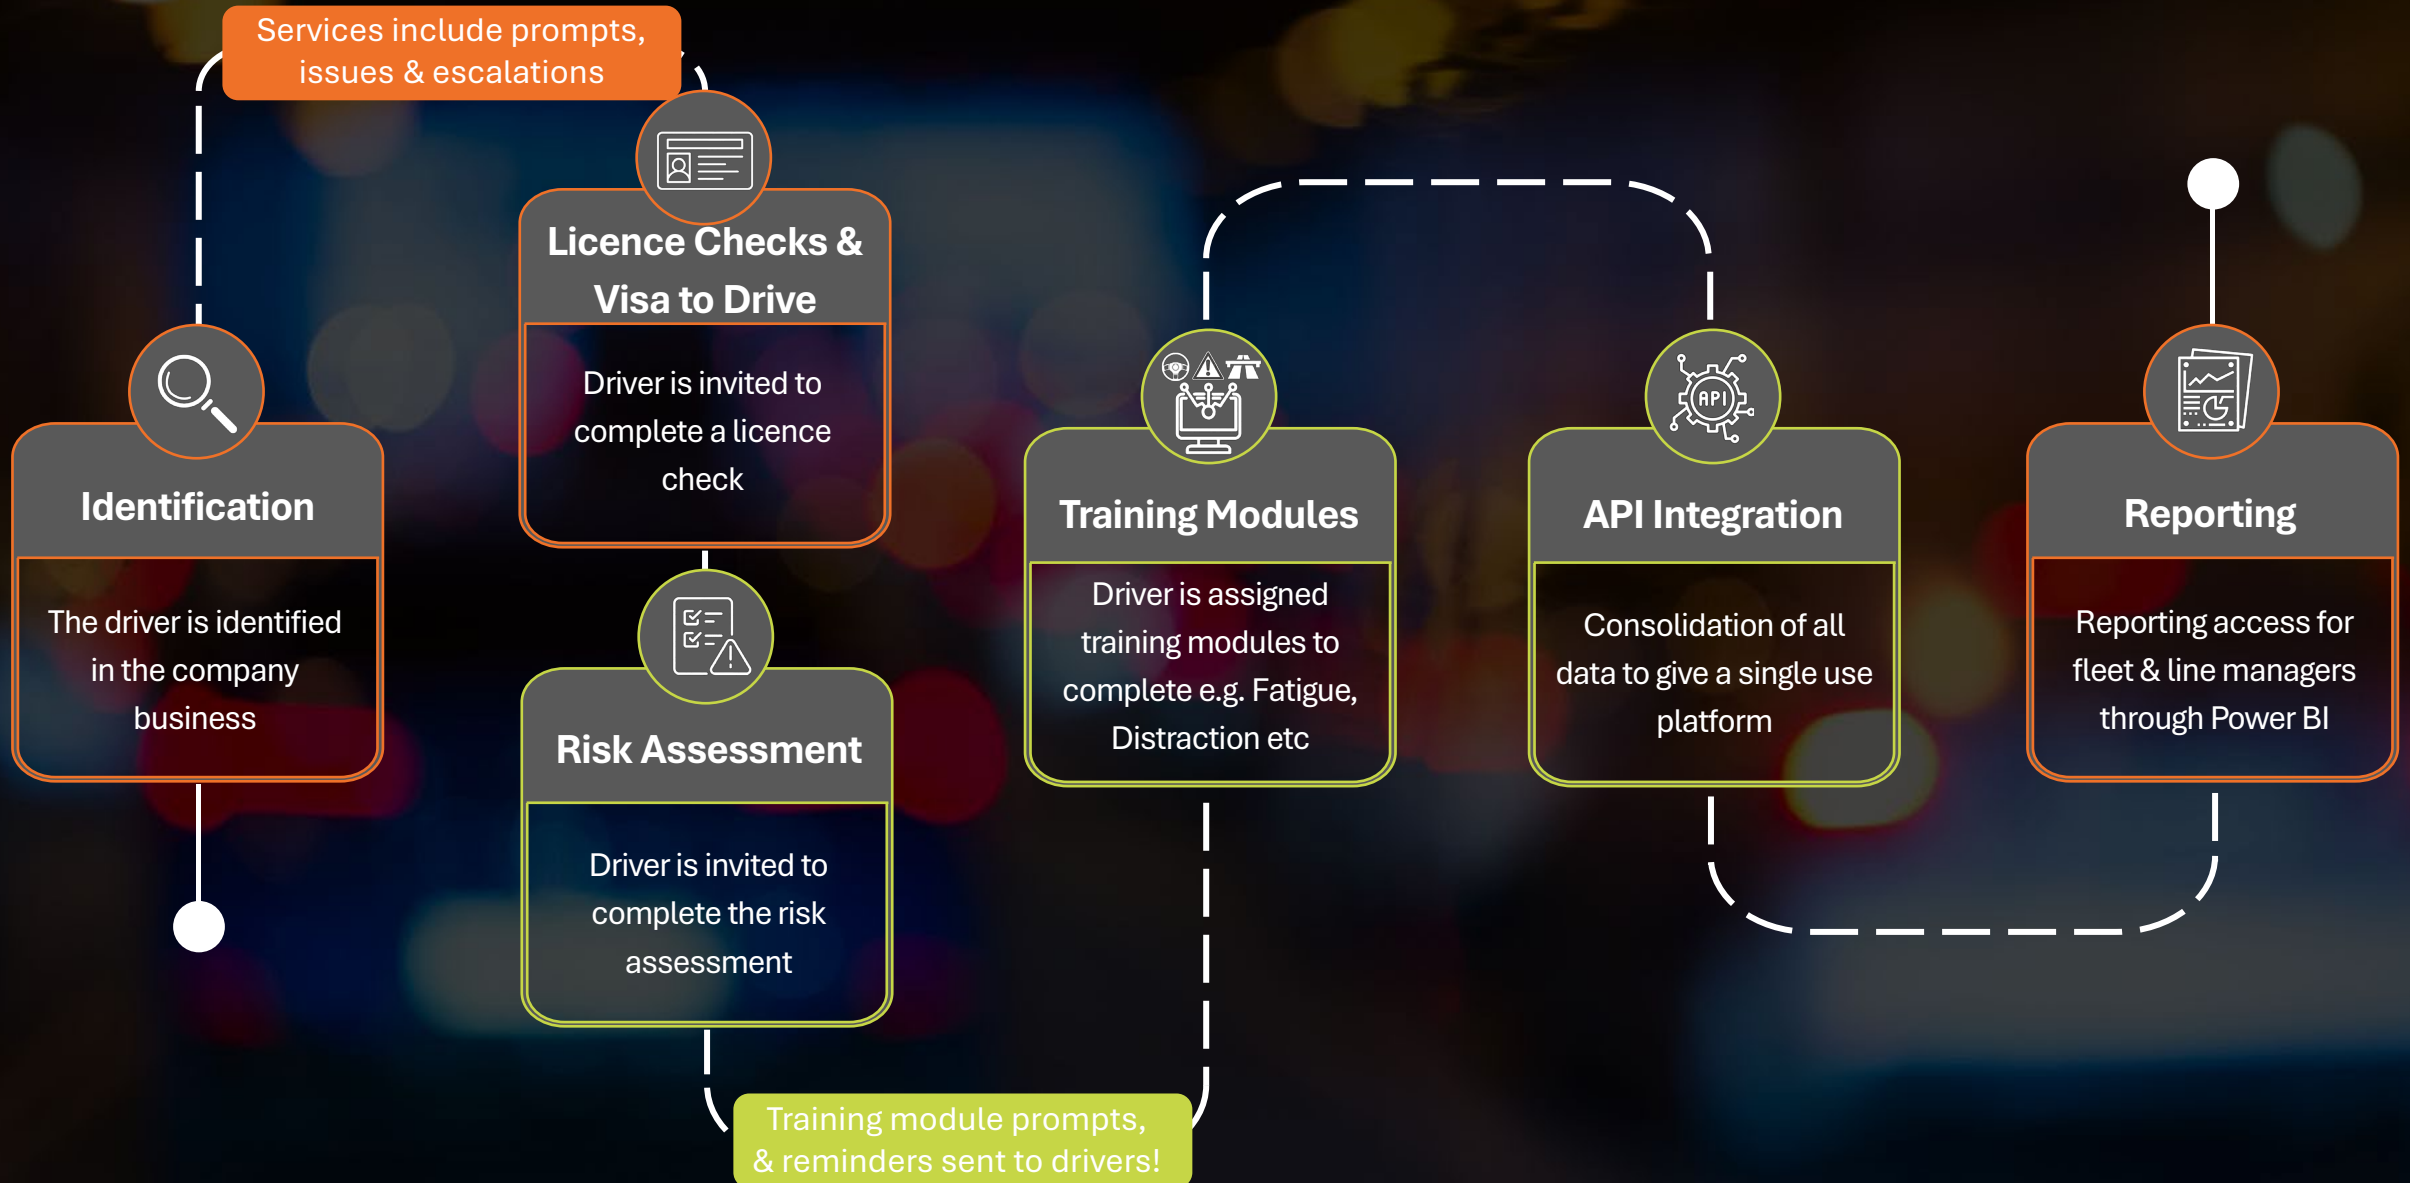

Bespoke Solution

Training is tailored to business requirements and is never recommended without due cause. Training experience is always bespoke to the driver
